Slender barley developmental mutant cell extension growth 1753
barley genomic sequence lipid transfer protein low temperature 1885
Gene induction
abscisic acid barley *Hordeum vulgare* uptake carrier 1565
Gene products
flowering red clover 517
Genetic basis
potential water use efficiency $\delta^{13}C$ barley carbon discrimination 1661
Genomic sequence
barley gene expression lipid transfer protein low temperature 1885
Germination
Nicotiana tabacum maturation pollen ethylene 529
blue light glutamine synthetase phytochrome turion *Spirodela polyrhiza* 1219
Quercus robur ethylene light abscisic acid recalcitrant seed 1295
cotyledon cucumber pyruvate oxidation 1489
Giberellic acid
auxin cell expansion cucumber lettuce suspension culture (spinach) xyloglucan endotrans-glycosylase xyloglucan 1703
Gibbosity
ammonium-N carbon dioxide *Lemna* nitrate-N 129
Global climate change
Crassulacean acid metabolism environmental productivity index gas exchange plant growth 295
Glucosinolates
salicylic acid oilseed rape *Brassica napus* 1343
β-Glucuronidase
rice sucrose synthase-1 promoter phloem-specific transgenic plants gene expression *Galanthus nivalis* agglutinin 623
Glucuronoxylan
Golgi apparatus endoplasmic reticulum *Pisum* 471
Glutamate synthase
glutamine synthetase N_2 fixation *Rhizobium leguminosarum* salinity 1483
Glutamine synthetase
blue light germination phytochrome *Spirodela polyrhiza* turion 1219
glutamate synthase N_2 fixation *Rhizobium leguminosarum* salinity 1483
Glutathione
phloem-xylem interchange long distance transport radial transport reduced sulphur spruce *Picea abies* 457
sulphate uptake sulphate transport xylem loading *Nicotiana* Solanaceae cysteine buthionine sulphoximine 1069
Glutathione reductase
hypoxia re-aeration glutathione system wheat 449
Glutathione system
hypoxia re-aeration glutathione reductase wheat 449
Glycine max
activation state 2-carboxyarabinitol 1-phosphate Rubisco photosynthesis 1119
ammonium nitrate nitrogen-nutrition nitrogen status split-root cultures 1575
Glycoprotein
Solanum tuberosum potato immunogold labelling rhizobia flavonoids 1475
Golgi apparatus
glucuronoxylan endoplasmic reticulum *Pisum* 471
monensin immunocytochemistry secretion 685
Zea mays L. plant cells Brefeldin A endoplasmic reticulum 1347
Graft
compatibility *Prunus* 393
Grafting
Sitka spruce callus dormancy differentiation 135
Grain nitrogen
weeds wheat barley 937
Gramineae
Fe-deficiency mugineic acid nicotianamine aminotransferase phytosiderophore 1903
Grape
energy metabolism anaerobic stress aeration ethanol production 145
Grapevine
Agrobacterium rhizogenes Vitis vinifera transgenic plants 649
Grasses
allometry elevated CO_2 growth analysis 305
nutrient allocation nutrient use efficiency nutrient productivity elevated CO_2 climate change 1267
Gravitropism
perception hypocotyls nodes models 77
water plants environmental stress *Potamogeton pectinatus* elongation anaerobiosis 1309
Greenhouse applications
portable NMR system plant water balance sensor flow water content 61
Greenhouse effect

Water uptake
transpiration water relations tomato lysimeter 51
Cucumis sativus root respiration aerial O_2 transport $^{18}O_2$ tracing 187
Water use
Arachis hypogaea elevated CO_2 1633
Weeds
grain nitrogen wheat barley 937
Wheat
detached leaves senescence proteolysis leaf age 103
Thinopyrum Leymus amphiploids salt 441
hypoxia re-aeration glutathione system glutathione reductase 449
ion transport nitrate ^{15}N efflux analysis compartmentation 667, 677
grain nitrogen weeds barley 937
leaves β-amylase polymorphism compartmentation 1147
zinc manganese distribution remobilization 1829
Wheat embryos
abscisic acid Em genes osmotic stress transient expression 561
Wheat lipids
greenhouse effect fatty acid composition carbon dioxide levels 1379
White clover
N_2 fixation $^{15}N_2$ alder enclosure apparatus 749
Wild oat
after-ripening *Avena fatua* dormancy seed 275
Wild rice
Oryza photosynthesis photorespiration rice 553
Wilty mutant
ABA *Helianthus annuus* L. stomatal conductance 533
ABA *Helianthus annuus* L. water relations drought stomatal conductance 1809
Wind
anchorage root mechanical stimulation tomato 1647
Wound signalling
Lycopersicon esculentum Spodoptera littoralis hydraulic signals systemic defence responses 953
Xanthoria
DGTS fatty acids lichen lipids 403
Xylem
N-deficiency *Ricinus communis* transport phloem nitrogen carbon cations chloride 733
abscisic acid ammonium *Ricinus communis* phloem transport nitrate nitrogen nutrition 741
Cuscuta reflexa Lupinus albus carbon nitrogen phloem transport parasites modelling 791
Cuscuta reflexa Lupinus albus parasitism carbon nitrogen phloem transport 801
Xylem cell walls
cadmium citric acid ion exchange ligand exchange tomato 597
Xylem exudate
Brassica napus nitrate supply efflux influx root temperature 1045
Xylem loading
sulphate uptake sulphate transport *Nicotiana* Solanaceae glutathione cysteine buthionine sulphoximine 1069
Xylem sap
abscisic acid hormonal stress signals mechanical impedance roots *Zea mays* 221
tomato *Lycopersicon esculentum* Mill. castor-oil plant roots *Ricinus communis* L. abscisic acid root-to-shoot communication sucrose transpiration stream 317
Xylogenesis
2,4-D BAP *Solanum aviculare* cotyledons vessels carboxylesterase 1523
Xyloglucan
auxin cell expansion cucumber giberellic acid lettuce suspension culture (spinach) xyloglucan endotransglycosylase 1703
Xyloglucan endotransglycosylase
cell wall plant growth 1693
auxin cell expansion cucumber giberellic acid lettuce xyloglucan suspension culture (spinach) 1703
Yield
Striga hermonthica sorghum photosynthesis transpiration 281
Yield threshold
cell expansion Lockhart equation extensibility molecular model 1675
Zea mays
abscisic acid hormonal stress signals mechanical impedance roots xylem sap 221
plant cells Brefeldin A endoplasmic reticulum Golgi apparatus 1347
cell suspension culture nitrate passive uptake 1387
Bafilomycin A1 coleoptile H^+-ATPase(vacuolar) maize 1397
calmodulin-stimulated calcium pump functional reconstitution mitosis monoclonal antibody 1553
Zinc
manganese wheat distribution remobilization 1829
Zinc deficiency
NAD(P)H oxidase superoxide radical plasma membrane 45
Zinc stress
apoplasm barley leaf peroxidases polypeptide 1189
Zygotic
Medicago (alfalfa) somatic embryos (seeds) storage proteins immunolocalization 699
